### **DETAILED ACTION**

- This office action is in response to the Appeal Brief filed on 12/08/2008.

#### ***Response to Arguments***

1. An appeal conference has been held and fully considered applicants' remark in the Appeal Brief. Applicant, in the appeal brief filed on 12/08/08, argued on pages 2-3 that "Appellant submits that the Amendment and Reply under 37 C.F.R. § 1.116 dated September 25, 2008, including the Final Office Action Amendments should have been entered because the amendment incorporated features into independent Claims 29, 36, and 42 that were previously presented in Claims 33, 34, 40, and 46". The Conferees agreed with the applicant on this argument and as a result, amendment after final submitted on September 25, 2008 has been entered.

#### ***Allowable Subject Matter***

2. Claims 29-32, 35-39, 41-45 and 47 (as filed with amendment on 09/25/2008) allowed.

3. The following is an examiner's statement of reasons for allowance:

Applicant's arguments, see pages 8-9, filed 09/25/2008, with respect to claims 29, 36, and 42 have been fully considered and are persuasive. The U.S.C. 103(a) rejection of claims 29-32, 35-39, 41-45 and 47 has been withdrawn. Claim 29 as amended require along with other limitation, ""(j) comparing the identified number of confirmations performed with the identified number of identifications allowed; and (k)

Art Unit: 2435

based on an outcome of the comparison, identifying a second secret value and repeating (c)-(i) replacing the identified secret value with the identified second secret value". Yu discloses identifying number of identifications allowed and changing the secret value based on number of identifications allowed (see, Fig. 6, and also Column 10, lines 63-67, when counter N reaches 0 random number initializes). However, Yu does not explicitly discloses (as argues by applicant on page 9 of amendment submitted on 9/25/2008) based on an outcome of the comparison, identifying a second secret value and repeating (c)- (i) replacing the identified secret value with the identified second secret value. Therefore, any Prior art of record does not teach or suggest alone or in combination with other prior art of record the combination of steps as recited in independent claims 29, 36, and 42, and particularly prior art of record does not teach or suggest alone or in combination with other prior art of record the following limitations: "(j) comparing the identified number of confirmations performed with the identified number of identifications allowed; and (k) based on an outcome of the comparison, identifying a second secret value and repeating (c)-(i) replacing the identified secret value with the identified second secret value."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
